My Wellness Goal
Walk for 10 minutes twice today

 HealthCare

Keep patients and families informed with EMR-integrated and fully automated whiteboard updates. Designed to provide personalized, timely information that empowers patients, this digital display requires no additional workflow intervention from staff. Better informed patients and improved efficiency results in increased satisfaction all around.

PATIENT BENEFITS:

- Important care team and schedule information is easily accessible and always in view
- Automated updates ensure timeliness and accuracy
- Displays personalized preferences and goals to enable higher quality interactions with staff
- Data is presented with patient privacy in mind (e.g. treatment types)

HOSPITAL BENEFITS:

- EMR integration automates updates, saving staff valuable time and standardizing shift changes
- Highly visible education and meal ordering reminders improve patient compliance
- Eliminates hand-copying, board cleaning, and searching for markers
